1. What is the Django Template Engine? Explain the differences between Django Template Tags and Template Filters with suitable examples.

2. What is Django Middleware? Explain the differences between Built-in Middleware and Custom Middleware. Also describe the middleware execution order.

3. What is a Django ModelForm? Explain how to create a ModelForm and handle HTML form submissions using GET and POST requests.

4. What is the difference between Static Files and Media Files in Django? Explain how to configure and handle image uploads using `ImageField`, `MEDIA_URL`, and `MEDIA_ROOT`.

5. Explain Django Authentication and Session Middleware. How do Login, Logout, and Session Management work in Django?

Submission Guidelines

1. Answer all 5 questions.
2. Write answers in your own words.
3. Include code examples wherever necessary.
4. Prepare your answers in PDF format.
5. Submit the PDF file to your instructor.
